Preliminary Exam 2025-26

Std : X
Time : 2 Hours

Sub. : Science & Technology (II)

Marks : 40

5

Q.1) A) Select the proper alternative.

1) Solar photovoltic cell converts the solar radiation energy directly into ..... energy.
(a) chemical (b) Solar (c) Mechanical (d) Electrical

2) Rifamycin antibiotic is used against ..... diseases.
(a) Cancer (b) tuberculosis (c) Asthama (d) AIDS

3) Alcohol consumption mainly affect on ..... system.
(a) Digestive (b) respiratory (c) nervous (d) excretory

4) ..... is a man-made disaster.
(a) Earthquake (b) Flood (c) Volcano (d) Leakage of toxic gas

5) Any nucleotide of the gene suddenly changes its position causes minor change called as .....
(a) Mutation (b) Transcription (c) disability (d) translocation

5

B) Solve as per given instructions.

1) Give any two commercial uses of Biotechnology.

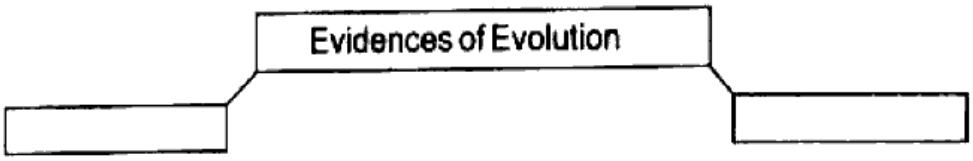

2) **Match the columns.**

Group A	Group B
a) Melanin	i) Blood
b) Ossein	ii) Skin
	iii) Bone

3) **Find odd man out.**
Earthwarm, Grasshopper, Leach, Nereis

4) **Find the co-relation between :**
Transverse Binary fussion : Paramoecium : : Longitudinal binary fission : .....

5) **Complete the concept.**

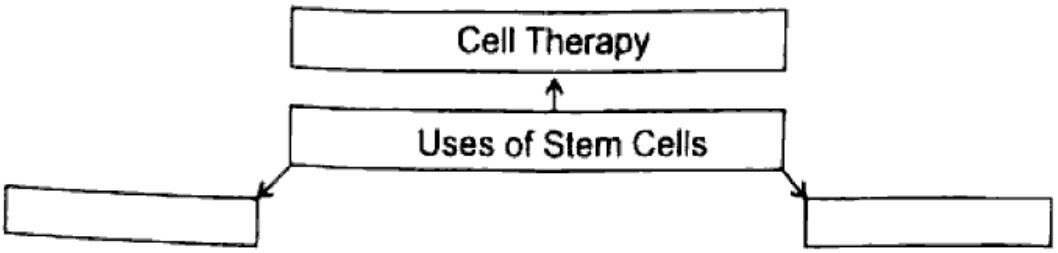

Q.2) A) Give scientific reason. (Any 2) 4

1) Sometimes higher plants and animals too perform anaerobic respiration.
2) Balanoglosus is connecting link between non-chordates and chordates.
3) Some of the organ in human body are most valuable.
4) It is absolutely necessary to control the fission reaction in nuclear power plant

B) Solve any 3 subquestions. 6

1) **Complete the concept below.**

2) Write charecters of phyllum Porifera

3) Write your opinion on the given picture.

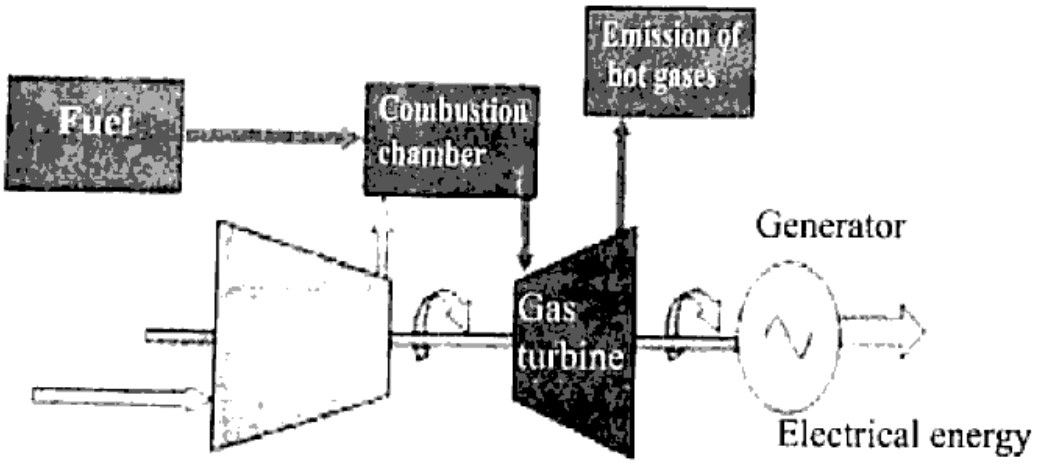

4) Define heredity and give any mechanism of it.

5) Write note on Environmental conservation.

Q.3) Solve any 5 subquestions. 15

1) **Observe the picture and answer the questions given below.**

a) Identify the schematic power plant.

b) Which energy is generated by using this power plant.

c) Draw the flow chart of it.

(P.T.O)

2) **Give two examples of each of the following.**

a) Hobbies to reduce stress.

b) Problems arising due to excessive use of mobile phones.

c) Incurable diseases.

3) **What precautions would you take during following disaster.**

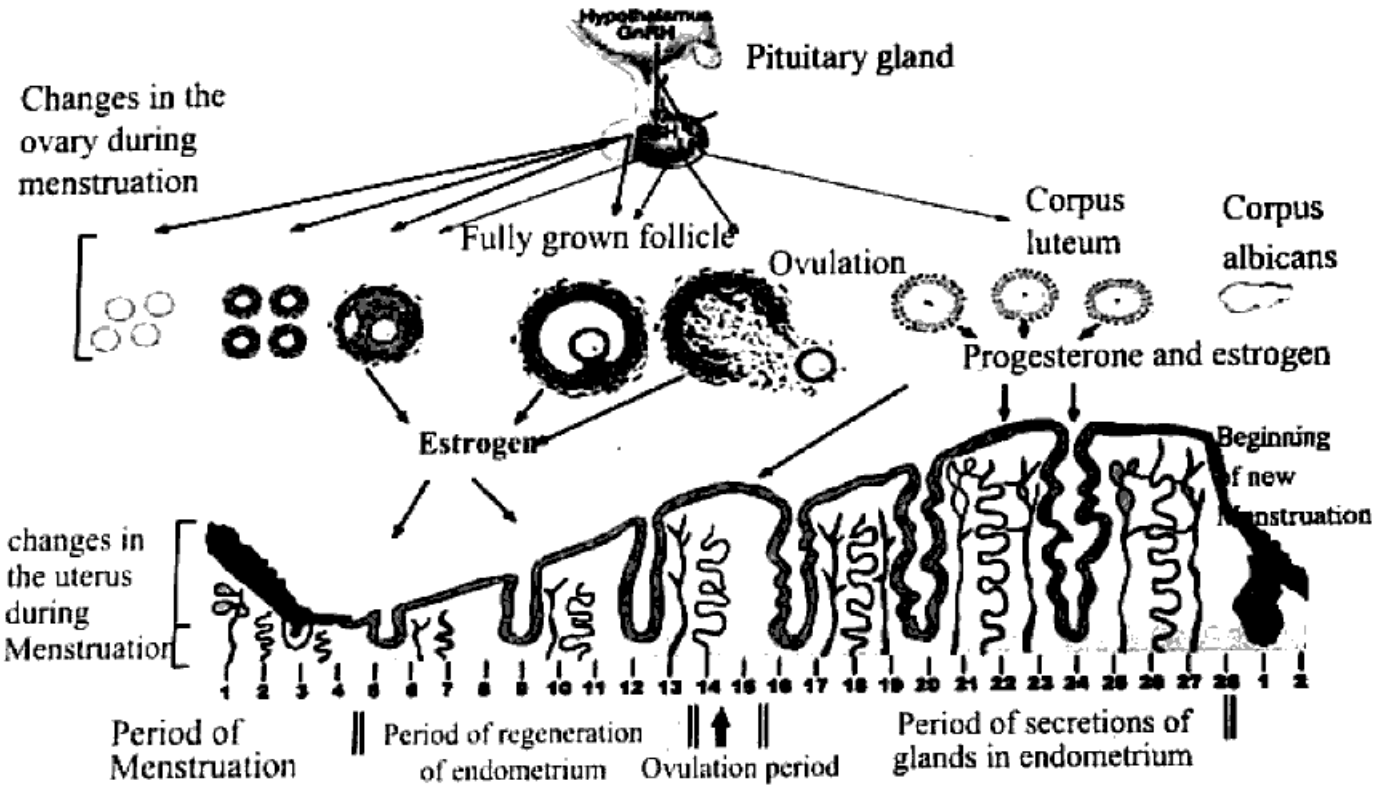

Earthquake, snake bite, landslides.

4) Explain Darwins theory of Natural Selection.

5) **Explain difference between :**

Mitosis and Meiosis

6) **Observe the figure and explain the Menustral cycle in detail.**

https://www.maharashtrastudy.com

7) **Give classification chart of :**

a) Bath sponge

b) Jellyfish

c) Frog

8) What do you understand by Biofuels?

Give examples of its solid, liquid and gaseous forms of biofuel.

(P.T.O)
